A sensitive receiver beyond the horizon with a high gain antenna focused on that area of the troposphere can pick up the signal. Thu, 14 Feb 2019 13:05:00 GMT Microwave - Wikipedia - In telecommunications, insertion loss is the loss of signal power resulting from the insertion of a device in a transmission line or optical fiber and is usually expressed in decibels (dB). Wed, 13 Feb 2019 12:52:00 GMT Insertion loss - Wikipedia - High reverse isolation S12, > -30dB at low frequency. They are unconditional stable with any source or load impedances, whose reflection magnitude is less
