GMT isuzu diesel engine oil specifications pdf - The Family II is a straight-4 piston engine that was originally developed by Opel in the 1970s, debuting in 1979. Available in a wide range of cubic capacities ranging from 1598 to 2405cc, it simultaneously replaced the Opel OHV, Opel CIH and Vauxhall Slant-4 engines, and was GM Europe's core powerplant design for much of the 1980s. GM Family II engine - Wikipedia - My '92 SC400 was leaking cooling fan oil. It never completely shit out, but I thought, "Why not?" So I paid like \$500 for this electric fan that while is lighter, does not keep the motor any cooler. Chrysler Parts | Replacement, Maintenance, Repair - CARiD.com -
